SIAAS Survey

For SIAAS Testers

Master's in Telecommunications and Computer Engineering
ISCTE - Instituto Universtitário de Lisboa
João Pedro Seara, 2023

* Required

Thank you for being a SIAAS Tester!

It's crucial that your answers are completely honest.

Please note that negative replies or critics not only are welcome - as they will help to drive future work - but they also do not impact the author negatively.

Once again thank you for testing SIAAS and answering this survey!

This survey contains 17 agreeableness statements and 3 open-ended questions, and should take 5 to 10 minutes to answer.

Personal Information

1

What's your name? *

2

What's your company? *

3

What's your role? *

Technical Aspects

10 sentences, rate 1-5

4

Please select your stance regarding each of the statements. *

	Strongly disagree	Disagree	Neither agree or disagree	Agree	Strongly agree
It is easy to install and configure the components of this vulnerability scanner.	○	○	○	○	○
The CLI usage and help menus are user-friendly.	○	○	○	○	○
The agent correctly discovers neighborhood hosts.	○	○	○	○	○
The vulnerability scan results are accurate.	○	○	○	○	○
The vulnerability scans do not impact network or targeted hosts negatively.	○	○	○	○	○
The e-mail reports are reliable.	○	○	○	○	○
The existing documentation is useful.	○	○	○	○	○
It is easy to customize the scanner for one's specific environment.	○	○	○	○	○
It is easy to integrate the API with existing tools and workflows.	○	○	○	○	○
You are satisfied with the performance and functionality of the vulnerability scanner.	○	○	○	○	○

Organizational Aspects

5 sentences, rate 1-5

5

Please select your stance regarding each of the statements. *

	Strongly disagree	Disagree	Neither agree or disagree	Agree	Strongly agree
This vulnerability scanner is a valid approach to an organization which has no access to paid commercial solutions or cybersecurity human expertise.	○	○	○	○	○
When compared with other paid tools like Nessus, considering human expertise and configuration time, this scanner saves time/money/resources while keeping an acceptable performance.	○	○	○	○	○
